SCOUTS LEAVE FOR JAMBOREE

Staff picture

Queen Scout Bill Uchayshyn and First Class Scout David Hoff, as they were leaving for Edmonton, on the first leg of their trip to Ottawa, where they will attend the Scout Jamboree, starting July

6th. The boys left for Ottawa by train on Monday evening, after taking part in the Scout Parade from 3 to 5 in the afternoon in Edmonton. It is a signal honor to have these two fine young men going to the Jamboree. Both are a credit to their local Scout troop.

Mr. Fred Toolkey is Scoutmaster for Troop B, and Mr. Helms Baum is Scoutmaster for Troop A. Mr. Baum's troop has left for their weeklong camp at Buck Creek, near Carmarvon, and in a few weeks, Troop B, under Scoutmaster Toolkey will leave for their camp, which they will make at Skeleton Lake, just north of Edmonton.

LETTER TO THE EDITOR
(Cont., from page 3, Col. 6)

Some time ago while travelling west from traffic lights counted nine vehicles passing me while travelling at 25 miles per hour. Is there a limit? I was lost in a cloud of dust.

Secondly what got my blood boiling was going north just at the B.A. service station when I noticed this truck approaching at a terrific speed. I had slowed down to a crawl as I saw a small boy on the opposite side of the road, but the truck driver did not notice anything as he came roaring by covering my car and

the little boy with mud. I noticed the name of the company of the truck but I will take a guess and name the driver a "Leatherhead".

(Name on File)

On any average day, hundreds of engineers, technicians and other automotive experts drive a total of 30,000 miles at the General Motors Proving Grounds.

More passenger cars are built at GM of Canada's Oshawa plant than at any other automotive plant in Canada.

At road speeds of 60 miles per hour, approximately 2,500 gallons of water per hour are circulated through the average automobile radiator, according to General Motors engineers.

Every year, 10,000 people tour the General Motors Oshawa plant. A walking tour would take weeks to complete and so visitors tour by motorized "train".

"Could you give me some pointers," queried the journalism student "on how to run a newspaper?"

"You came to the wrong person," answered the editor, "ask one of my subscribers."

LEGION BALL TOURNAMENT & WRESTLING

After a driving rain on Friday afternoon, just before the scheduled Legion Ball Tournament got underway, cancelling the games for that day, Saturday dawned with weather clear and beautiful to give the hardworking Legion lads and ladies the break they needed to get the big show on the road. The grounds were in perfect shape, and the Legion had worked hard and late the night before completing the fences around the ball grounds. The Legion ladies were right on the job selling barbecued horderves and hamburgers and aromatic coffee to hungry patrons.

Six teams showed up for the final afternoon. It had been expected that there would be at least eight teams competing, but as it was, with the weatherman being uncooperative on the first day of the scheduled two-day tourney the six teams that were entered balanced out the day just right to finish the last game before sundown. The six teams in the final lineup were the local team, the Legionaires, a team from Stony Plain, Warburg, Ganges, McKay and Lodgepole.

Playing in the final game was the excellent Warburg team and the equally excellent lineup of players composing the McKay team.

The Warburg team would certainly have given a much better accounting of themselves if they had not been tired from playing three straight games, but anyway McKay took them for a final score of 8 to 2. One of the features of the tournament was the exceedingly high quality of the

ball played throughout the games. Any one who did not get out to the Legion ball tournament at all during the day missed some real oldtime baseball playing. Immediately following the closing of the tournament another big Legion attraction was staged this time in the Recreation Centre, which bevy boys and girls grunted and puffed in the wrestling matches conducted under the Legion banner.

First match was between brawny, bearded Dave Ruhl, 241 lbs., the "Hanna Blacemith" and Ker Larimoon of Vancouver, 218 lbs. Larimoon had achieved some fame in the squared circle as a boxer some years previously, also, when he had been Nerd on a Golden Gloves champ in Vancouver in 1954. The match was a 30 minute time limit set and was called a draw by referee Phil Klein at the end of that time.

Following this was the match between the two girl wrestlers, featuring Jackie Hammond, of Calgary, weight 130 lbs. and Emily Smith of Edmonton, weight 140 lbs., according to her scale. These girls were ladies in name only and referee Klein had his hands full to see that all was up and aboveboard, and didn't always succeed. At one hilarious time in the event which was scheduled as a two out of three falls or a 45 minute go, Referee Phil picked up easy Jackie and soundly spanked her derriere. However, unbeknownst to Jackie finally gained the winning (Cont., on page 9, Col. 3)

BODY FOUND IN RIVER

With the finding of a so-far unidentified body in the Saskatchewan River some miles down stream from the bridge east of Drayton Valley it is thought that a three-year old mystery may be solved.

In August, 1958, patrolmen went to work painting the then-new bridge, and when scaffolding came loose on the underside of the bridge, one man, Mr. Rudolph Fisher, aged 40, of Clearhill fell to his death in the bluish river water many feet below the bridge.

Ever since that time the river has been searched at various times, but so far no trace of the body has been found. (Cont., on page 10, Col. 5)

NEW GOLF COURSE FOR DISTRICT

This district will soon be served by another excellent privately owned golf course. Arrangements are well underway by Mr. Ed. Featherstone who is undertaking the new venture to get the preliminary work done on the course to have it ready for the 1962 season.

Proposed location for the eighteen hole course, complete with clubhouse and other facilities is north of Drayton Valley, on (Cont., on page 10, Col. 5)

District Personalities

THOMAS W.D. JOHNSON. Photo by Curt's Studio

This week's Personality is of interest to us because he represents the young man who moved into a new community, married, and set up in business.

Tom came to Drayton Valley in 1955, married a young nurse whom he met when he was in the army here and has set up in business in a modest way.

He was born in Castor, Alberta, and was raised on a farm there. He went to one of the typical one-room country schoolhouses with which the country districts used to abound. In 1940 he passed public school, and then as both roads and transportation were bad in those days, he began to take high school work by correspondence. Soon after that his father suffered a stroke and young Johnson, and his brother who was one year younger than he, had to take care of the farm work.

He worked on the farm until the fall of 1955, with the exception of one summer spent in B.C. in construction work and one winter

spent near Rocky Mountain House in a logging camp. In late 1955 he left the farm to go to work in the oilfields which at that time were expanding rapidly. He followed oilfield work in Smelter, Peace River and Big Valley districts until the spring of 1958 when he joined up with a national life insurance company as a life sales representative. In March of that year he moved out to the new town of Drayton Valley where he began to work at his new profession.

He married Miss Evelyn Hewitt, R.N., in 1958. They have two children. They are members of the Church of God, where Mr. Johnson is secretary-treasurer on the Board of Trustees.

Two years ago he started in the general insurance business and is now handling other lines from his new office in the former bus depot. In addition to his insurance business he is now licensed as a real estate operator and is agent for a transit company.

JUVENILE BASE BALL

Drayton Valley Juvenile Baseball team added another diamond to their outstanding record when they won both games out on the Drayton Valley diamond Sunday afternoon, playing again against a strong opposing team from Mayerthorpe.

	MAX.	MIN.	PERC.

fall to win the match. And we don't care how money you pay elsewhere you'll never see a better show for your money than the gala provided, not to mention the horrible behavior who came on next, following the intermission.

In the final Tag Team match, two out of three falls, 60 minute time limit card contained were John Smith, of, allegedly of New York City and his partner, Mack-smith Bob of Hama. Both sported heavy black beards and both weighed in at 340 lbs. of muscular at maulhood. These were the "bad guy" for the boxing fans.

Their opponents, the "good guys" for the viewing fans, were Bud Osborne, of Jasper Place, 250 lbs. and his partner Kenny Lockwood 220 lbs. Bud was also a former boxing champ, with the former title of Canadian Amateur Boxing Champion, heavyweight, as well as a wellknown wrestler. The first fall went to the Osborne-Lor-

Police Report

In Magistrate Clark's court today the R.C.M.P. pressed charges against fourteen cases, five to which were for speeding, with fines from \$20. to \$25. I learned. A "speeding with a truck" case drew a fine of \$25. Failure to produce a licence drew a fine of \$5.00 and four cases of driving pasting over the solid line on the highway drew fines of \$15. each.

A minor railing a ruckus in a Lodgepole restaurant at 6 o'clock in the morning, occasioning a flying trip to Lodgepole by the Drayton Valley R.C.M.P. to bring him in, pleaded guilty to a charge of creating a disturbance in a public place and to being a minor nuisance. He was fined \$40.00, on each count the youth elected to serve sentence instead and was taken to Fort Saskatchewan for two months.

A number of cases involving purple gas, overwide vehicle and no reflection were also tried and drew fines.

Drayton Valley police also had a fairly large docket of cases for the magistrate's decision. They involved a case of driving while licence was under suspension, with a fine of \$75. A youth found guilty of stealing a transistor radio, and his companion in the theft, were each given a one year suspended sentence. Three cases of fighting on licensed premises drew fines of \$10. in

Reports

RECENT DEVELOPMENTS IN PARLIAMENT

The big news on Parliament Hill has been the Coyne affair. The Governor of the Bank of Canada has advocated higher taxes, higher interest rates, higher tariffs and a general belt tightening. The Government feels that an expansionist policy should be brought in to stimulate activity, promote production and provide jobs. The Government wants lower interest rates and wants to bring the Canadian dollar down to par. The Liberals and C.C.F. have supported Mr. Coyne.

Represented has been declared a grain and will qualify for Crown Meat Pass rates. This will stimulate our export trade, allow our farmers to diversify and provide for jobs in the transportation industry.

We have had quite a lot of difficulty with P.F.A.A., in our area. This Act still doesn't work too well in our area and I have made representations to the Minister of Agriculture in this re-

gard. However, I would point out that practically no P.F.A.A. would have been paid in our area this past year if we had not made the changes we did in 1960-61.

I have been carrying on some controversy with the Honourable Woman Willmore over use of armed forces in fighting forest fires. The fact is that a battalion has been on standby but Mr. Willmore will not ask for help. I feel that he should have, and that a change in policy at Federal level made it easier to get this help, but he still refused to ask even though he was informed of this in the latter part of April.

The budget for the 1961-62 fiscal year has now been brought down and a great deal of credit must be given to our Finance Minister the Honourable Donald Fleming, for his comprehensive analysis of current economic conditions in Canada and our trade relations abroad. In stating our basic objectives in this important field, they are:

1. To achieve expansion, diversification, better balance and greater stability in our over-all trade and in our trade with commonwealth and other countries.

2. To support and promote a regime of law and order in international trade; to respect our international commitments; and to stand ready to defend our rights

and interest.

8. To recognize the legitimate needs of Canadian producers to safeguard them against unfair trading practices; and to promote the balanced growth of all sectors of Canadian industry and agriculture.

One of the highlights in this year's budget speech for most Canadians was the decision to repeal the 7 1/2% excise tax on Canadian passenger cars. This will not only result in a very considerable reduction in the cost of cars to Canadians from coast to coast but provide an important stimulus to the work in Canada's automotive industry.

Although the budget will shortly be concluded, there remains one of the shrewdest yet most significant pieces of legislation yet to be dealt with, a bill authorizing the Government of Canada to declare the position of the Governor of the Bank of Canada vacant. Everyone in Parliament agrees irrespective of his politics that where there is a difference of opinion to the extent of a difference of policy in reference to fiscal and monetary matters between the Government and the Governor of the Bank of Canada then the Governor must resign. This M. J.E. Coyne refused to do and therefore Parliament through its representatives, must speak for the people.

(Cont. on page 8, Col. 1)

EDITOR ON DIET

EDITOR'S NOTE: This column is not the local editor. Economic circumstances automatically dictate that he (the local editor) will not become overweight.

OVERWEIGHT EDITOR FINDS REDUCING PLAN WITH WEIGHT LOSING AFTER - EFFECTS.

The overweight articles editor of Maclean's Magazine, Eric Hutton, has tried all manner of diets, from bananas and butter-milk to lemon heads. All of them worked in 30 years of dieting he took off 300 pounds. But all of them failed: all his lost 300 pounds found him out in the end.

At last, Hutton has found a reducing plan that worked (he lost a pound a day for three weeks) and leaps on working after the treatment is over (still under the influence, he's losing five pounds a week). He reports on his weight-loss experience at the Battle Creek Health Centre in Michigan in the July 16 Maclean's. Of all the Maclean's writers, Hutton, at 270 pounds was best qualified for this assignment.

The Battle Creek centre was founded 85 years ago by Dr. Seventh-Day Adventists. They believe that it is a man's duty to face judgement day in the best possible physical, as well as spiritual, shape. Nowadays many of the guests go to the centre, to shed pounds. One in five is a Canadian. Among the noted Canadian guests (most of whom go for relaxing rather than reducing) are Toronto clothing magnate David Dunelm; the dean of Canadian lawyers, Isaac Bibb; of Winnipeg; Senator Neil McLean, a slim Maritime; the late millionaire Harry McLean; St. Elizabeth's Flavelle, the Toronto baronet; and a Toronto society girl who felt she just had to lose three pounds.

Hutton, like any other Battle Creek guest, spent the first four days under general medical and physical examinations at the hands of half a dozen specialists and technicians, and a corollary called the universal dynamometer. Docton told him he needed reading glasses, that his blood pressure and cholesterol level were a little high. The universal dynamometer need weakness in the right hand and arm, the left latissimus dorsi and the neck extensor.

The 800-calorie-a-day diet had a steady stream of dairy foods, whole grain, fruit and fresh vegetables; no alcohol or tobacco. Hutton's medical examinations, after Hutton settled down to work. His working day at Battle Creek started at 7:45 a.m. with a prayer meeting and calisthenics before breakfast - juice, poached egg on melba toast, tea or coffee substitute.

After walking upstairs to change into his gym suit and down again (Hutton said it was the way) Hutton went for his daily two-hour treatment. Swaddled in wet sheets, he was doused with hot and cold water in the electric light bath, he boiled gently in a hot fomentation bed, he steamed. He was massaged, steamed and rubbed with salt, before the daily pre-lunch weigh-in.

After lunch, he took his exercise: bends, jumps, and pushups. And then he proceeded to the mechanical gymnasium. "You ride horses that gallop and buck; you sit on loose-jointed chairs on which it takes energy just to stay put; you lie on beds that jounce like a branch-line Pullman berth; you lower yourself into electric chairs. . . ."

Then Hutton could relax, with nature walks, tennis, gardening, or health lectures, before dinner and the postprandial march --- "an intricate pattern of marching in the gymnasium, rather like the RCMP's musical ride on foot"

For veteran weight-lost Hutton, all this was not new. What was new at Battle Creek, for Hutton, was a total change of some age and way of life; a not let-down-the side atmosphere created by the staff; a strong religious overtone; and the guiding spirit of Dr. John Harvey Kellogg. Dr. Kellogg, who operated the Battle Creek centre from 1876 to 1943 derived most of the procedures and all the therapeutic and exercise equipment at the centre. He died in 1943. But for Hutton "he still runs Battle Creek."

Dr. Kellogg also invented corn flakes, and named them, like crumbs to a dog, to his brother, Will, who made a fortune out of them that was later bitterly contested for by the doctor. The brother was W.K. Kellogg, whose signature has become one of the world's most familiar trademarks.

COOKING MAGIC

RAY GUNZ, B.B.K. Home Service Director

Tested Recipes and Meal Planning Ideas Prepared for Pembina News Advertiser Readers by the Home Service Department of Northwestern Utilities, Limited.

Is your family fond of chicken? The next time you're planning the picnic menu, try our favorite outdoor food!

FRENCH FRIED CHICKEN

One 2 - 3 1/2 lb. fryer
1 egg yolk or white

1/3 cup milk
1 cup soft bread crumbs.
1/2 cup flour
1 tsp. salt
1 tsp. paprika
Deep fat for frying

Cut chicken in serving pieces. Blend egg and milk. Combine crumbs, flour, seasonings. Dip chicken in egg mixture, then in crumbs. Let dry a few minutes Fry in deep, hot fat 350 F., until brown and tender, 10 - 15 minutes. Fry a few pieces at a time. Drain on absorbent paper. Keep warm in a slow gas oven (300 F) until ready to serve, or serve cold.

FOR - BAKED CHICKEN SUPPER

8 chicken breasts
1 1/2 tsp. salt
Dash pepper
2 tbsp. minced green onion
1 clove garlic, minced
1/2 tsp. crushed tarragon
Dash onion powder
1 can condensed cream of mushroom soup

Sprinkle chicken with salt and pepper; combine rest of ingredients spread on surface and in cavity of chicken breasts. Place each piece of chicken on square of aluminum foil; bring edges together and seal with droppers wrap, folding corners under. Cook over coals till tender - about 30 minutes, turning packages once.

POTATO SALAD

4 cups cold, diced boiled potatoes
1 cup chopped green onion
1/3 cup chopped pickle or olives or cucumber
1/2 cup chopped celery
1/4 cup French Dressing
4 slices cooked bacon, chopped
3 or 4 hard cooked eggs, chopped
Cooked salad dressing

Cut potatoes into dice or slices. Add onion and chopped celery, eggs, chopped pickles or olives or cucumber. Mix with French Dressing and bacon. Chill in gas refrigerator. Mix with cooked salad dressing, serve in lettuce and garnish with parsley. Serve with cold meats, deviled eggs and sliced tomatoes for a delicious summer supper.

Looking at Recreation

By: Michael Gumbly,
Recreation Director.

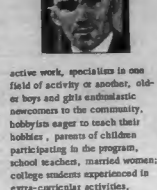

VOLUNTEER SERVICES:

In every program or organization there is a key figure, a personality around whom the whole circle of activity revolves. This person may be an individual capable of outstanding accomplishment or again it may symbolize a collective group within which the organization or program would not exist. Different personalities and different fields of endeavor vary in this respect, however, in the sphere of recreational activities, a tremendous percentage of the weight is carried by a certain group collectively known as the volunteer.

The organized recreation movement began with volunteer leadership. Almost every public recreation system in Canada and the United States is the direct result of volunteer organizations and efforts. Private leisure time has been proposed in proportion to volunteer contributions and services. Today and, I would say forever, the volunteer will have a significant place in the recreation patterns of the Canadian people in both public and private programs. The organized recreation movement in this country recognizes the volunteer as the most essential factor in its expanding field of activity. The need for volunteer is greater now than ever before and the work ahead strongly indicates even greater demands. Democratic society gives liberality of its time and ability to enrich the recreation hours of its people. It is the full recognition of this social responsibility that makes the field of volunteer in recreation one of adventure and initiative in achievement.

Each individual is a potential volunteer leader. As recreation becomes a part and parcel of each person's daily life and as more and more leisure is granted to the people, there is created a powerful reservoir of individuals who become capable of volunteerism and possess the time to contribute their abilities to social well-being. Professional leadership will find in this potential army of volunteer talent its best colleagues for richer programs under efficient and qualified guidance.

The breadth and scope of recreation makes it possible for every one to have a volunteer job to be or do the desire. There are, however, special sources from which a maximum of volunteer talent is recruited. Here are some of the most outstanding sources of volunteer production: former recreation workers, participants familiar with the current program, parent returned from

active work, specialists in one field of activity or another, older boys and girls enthusiastic newcomers to the community, church and club workers, professional and business leaders, athletes and sportsmen and a host of others. I would say that anyone is with a certain amount of experience and knowledge is vitally important here as in any other phase of life. However, enthusiasm and interest are absolutely essential otherwise you have not got a volunteer.

At this point I would like to stress the importance of junior leaders in any community recreation program. Volunteer services are in no way restricted to adults, for boys and girls display a natural desire and a definite capacity for leadership and service which express themselves in various ways, and especially on the playground. Older children can be helpful in willing stories to younger ones, guarding them at the wedding pool assisting with first aid, preparing publications, giving instruction in simple crafts, caring for equipment and supplies, carrying certain responsibilities in game and athletic organizations, and instructing the younger children in the use of apparatus. Safety patrols, junior police, junior leaders' corps, playground town governments and junior towns give opportunity for voluntary leadership by boys and girls and also provide vital training in leadership in general. In the case of child leadership, however, a qualified adult leader who stands by the junior leader and serves as a constant source of advice and assistance. In one sense of the word, a qualified playground leader is a leader of young leaders.

Here in Drayton Valley we are blessed with an array of volunteer programs comparable to any town or community in the country and for superior to most. We have our members of the local Recreation Board who give freely of their time and talents to set up standard recreational policies and administrative policies and advise Town Council in the administration of the community's recreation program. We also have the Drayton Valley Athletic Association,

an enthusiastic group of men and women who promote most of the local sports and athletic activities. Turning to our clubs and formal events we have the Lions, the Rotarians, the B.P.O. Elks, the Order of the Royal Purple, the D.V. Branch of the Royal Canadian Legion and others who have done and are still doing outstanding work for the general advancement of the community and especially in the field of recreation. Then we have the individuals, who for the most part belong to one or more of the above mentioned organizations, clubs or orders, and who, over and above their club or organizational activity, take out as program co-ordinators, coaches, officials and in other capacities to further the local leisure time program. I certainly can count myself a lucky man to be in charge of a program filled by so much enthusiasm and backed up by such a number of remarkable volunteer leaders. Let me tell you that this is not the state of things in every town and community. As one Recreation Board member said, "I think we are among the better ones. I don't only think but I know we are among the very best when it comes to volunteer work."

I have done a good job here since I took over a year ago on August last, the credit certainly is not all mine. Those wonderful people, the volunteers, who are so ready to help me out in one capacity or another; they are the ones who made me what I am in this position. To them, one and all I would like to say thank you a million and a look forward for their continued support and assistance.

LEGION SPORTS DAY:

Apparently the Sports Day sponsored by the local Branch of the Royal Canadian Legion was a good success in every department except the financial. First of all, the original two-day basketball tournament was cut to only one day because of Friday's downpour and secondly none of the attractions, except the dance at Rocky Rapids drew the customers they should have drawn.

The ball tournament featured some of the finest action we have seen on the diamond this season. A total of six teams took part in the tourney with five thrilling games being played. The D.V. Legionnaires got off on the wrong foot in the first game against Stony Plain and wound up on the wrong end of a 9-4 score. With several key players out of their lineup, the Drayton team played below par and never could seem to get a cohesive attack underway. The visitors were satisfied to play a cautious and it was enough to put them in the semi-final against the Warburg Buffaloes. The McKay Braves squeaked by the Gas-

coner Gents 5-1 in typical phobias of the White Warburg clubbered Stony Plain to set the stage for the grand finale. The action of the day when they got a bye into the finals while the Warburg boys were faced with the very difficult task of playing three games in a row. The Buffaloes put up a terrific battle, however, the fruster Braves were not to be denied and took the big one 8-0 to win the tournament and walk away with first money.

It was a pity that more people did not turn out to witness the going-on. Baseball enthusiasts of the community and district will never get a chance to see first ball than was played at the Legion last Saturday. The field was in fine shape, weather con-

ditions were ideal and competition was extra keen at all times.

The day closed out on a vaudeville one with the professional wrestling show at the Recreation Center, Saturday evening. Six mat artists, four men and two women were on hand to furnish the thrills, not to speak of referee Phil Lane who was possibly the best ever of all. The showman ship to every event was marvelous to put it mildly. The ladies match between Jackie Hammond and Millie Smith seemed to please the fans with Jackie doing a good job in a "bad girl" role. Among the packdancers, the bearded one of Dave Rial of Hanna, Alta. and John Smith of New York did not make too many friends among local fans as they turned out to be the (Cont., on page 10, Col. 2)

The Chapel Hour

Taken from Faith's Checkbook, By Dr. Spurgeon.

WHOM WHEN, HOW TO DELIVER

"The Lord knoweth how to deliver the godly out of temptation, and to reserve the unjust unto the day of judgment to be punished" 11 Peter 2:9

The godly are tempted and tried. That is not our faith which is never put to the test. But the godly are delivered out of their trials, and that not by chance, but by secondary agencies, but by the Lord himself. He personally undertakes the office of delivering those who trust Him. God loves the godly or godlike, and He makes a personal knowing where they are, and how they fare.

Sometimes their way seems to be a labyrinth, and they cannot imagine how they are to escape from this maddening danger. What they do not know that Lord knows. He knows whom to deliver. He delivers in the way which is most beneficial to the godly, most crushing to the tempter, and most glorifying to Himself. We may leave the "how" with the Lord, and be content to rejoice in the fact that He will, in some way or other, bring His own people through all the danger, trials and temptations of this mortal life, to His own right hand in glory.

This day is not for me to pry into the Lord's secrets, but patiently to wait his time, knowing this, that though I know nothing, my heavenly Father knows.

LUTHERAN CHURCH NEWS

The twenty-ninth convention Of the Alberta-British Columbia District of the Lutheran Church-Missouri Synod met this week at Concordia College, Edmonton. One hundred and one delegates registered in the convention, including both pastors and laymen from seventy-five congregations in the two Western Provinces. The Rev. E. Steyer and Mr. A. Stahler are representing Emmanuel Lutheran Church.

The Reverend Alfred Miller, president of the District, opened the convention of July 4th by leading the delegates in devotion on the theme, "Our Father's Business - Church Business". Special guests at the convention were Dr. Oliver Harris, of St. Louis, Missouri, first vice-president of the Lutheran Church-Missouri Synod, and Dr. Richard Dufway, of Oakland, California, who is the convention assayer.

On Wednesday afternoon, Rev. W. Rumsch was installed as executive-secretary for Missions and Parish Education in the District. Also installed into office was the Reverend K. Klein, newly called Institutional Chaplain for the Greater Vancouver area. Mr. Rumsch is former

pastor of Redeemer Lutheran Church, Edmonton, and Mr. Klein was the former pastor of First Lutheran Church, Manhattan Beach, California.

First vice-president, Rev. C.F. Basse, of West Westminster, B.C. presented certificates of recognition to two district pastors who have served in the ministry for twenty-five years. They are the Reverend John Ulmer of Pincher Creek, Alberta, and the Reverend Albert Krahennil, of Oliver B.C.

Since this year is the 150th anniversary of the birth of the first president of the Lutheran Church-Missouri Synod, Mr. C.F.W. Walther, the convention essay is dealing with Dr. Walther's attitude toward Reformed Theology.

The convention closed on Friday noon.

FIRST BAPTIST CHURCH NEWS

PASTOR WELCOMED.

Rev. and Mrs. Samuelson - with their children were guests to a surprise "Welcome to First Baptist Church" on Tuesday evening July 4. The party was held in the home of Mr. and Mrs. Sid Mitchell. A short program, with Dr. J. Woychuk as leader, was presented before several boxes of groceries were given to the guests. After the gifts were opened, an especially tasty lunch of home baking was served.

The Samuelsons were guests of their former church in Weavik win at a farewell on June 16, at which time a money gift was designated for the purchase of a new range for their new home in Drayton Valley.

Rev. Samuelson came to Drayton Valley on May 16, and the family arrived on July 1. A new home is being built for them on 44th Street just south of 50th Ave. Tentative plans include a church building on the corner of 44th St. and 50th Ave.

MISSIONARY AT FIRST BAPTIST

(Cont. on page 10, Col. 4.)

INSTALLATION OF LUTHERAN PASTOR

A service of Ordination and Installation was held in the beautiful Emmanuel Lutheran Church in Drayton Valley at the Sunday evening service. The ceremony marked the installation of the full-time pastor for Emmanuel Lutheran Church, which has been served, along with his sister Lutheran parish, in Tomahawk, by Pastor Rev. Karlson last to a new church in Drayton Valley. Since the leaving of Pastor Karlson the charge has been served by Pastor Rev. Mueller, of Spruce Grove and Pastor Janz of Jasper Place.

(Cont. on page 10, Col. 4.)

Anglican V.B.S.

Drayton Valley All Saints Anglican Church will conduct a Daily Vacation Bible School in the church and adjoining Parish Hall, starting Monday, July 17th. The two weeks course will be conducted from Monday July 17 to Friday July 21, and from the following Monday, July 24 till Thursday, July 27th. On account of the Redox, on July 28th, the D.V. B.S. will be concluded on Thursday morning, with a special D.V.B.S. program for the parents at 7:30 Thursday evening, July 27th.

Ages from six to twelve will start at 9 A.M., and the younger group, ages four and five, will start an hour later, at 10:00 A.M. Beginners, Primaries and Juniors will be given a wonderful D.V.B.S. course of Bible studies from the theme, "Living For Jesus". For handicapped each age group will use a "Craft-Pak" a pre-packaged handicraft set for each individual student.

A light lunch will be served to all D.V.B.S. students during the course and a games program is being arranged, with a full schedule of fun and study for all.

Registration will start a quarter of an hour early on Monday, July 17th, at 9:45 A.M. Mrs. Peggy Tyler will be supervisor for the courses.

The Ordination and Installation service was conducted by the Rev. F.W. Scholz, of Leduc. Vice president of the Alberta B.C. District Lutheran Missouri Synod and president of the Lutheran Church of Canada. The sermon was also preached by Rev. Scholz, who gave the charge to the incoming pastor, Rev. Steyer, assisting in the ordination and installation service was Dr. S.W. Spigels, a professor in the denominational University in Springfield, Illinois, who was one of the professors

CANADA POST OFFICE (Cont' - from page 8, Col. 3)

to be prepaid by means of postage stamps or postage meter impressions.

There is no change in the present rates of postage on newspapers and periodicals posted in Canada, which are addressed for delivery in Canada, in Commonwealth countries, the Republic of Ireland and the Union of South Africa.

The postage rates on newspapers and periodicals added to personnel of the Canadian Armed Forces overseas also remain unchanged.

CHANGES IN PARCEL POST RATES AND REGISTRATION INDEMNITY TO UNITED STATES

Officials of the Post Office Department have advised that the new Parcel Convention governing parcel service between Canada and the United States will come into effect on July 1st, 1961.

As a result, changes in parcel post rates from Canada to the United States and on registration indemnity will become effective on that date.

The weight limit on parcel rates has been increased from 15 to 25 lbs. The parcel post rate on a 1 lb. parcel will now be 40¢. Parcels over 20 lbs. and up to 25 lbs. will be subject to a rate of \$4.00.

The maximum indemnity for the loss of a registered article mailed to the United States has been raised to \$100.00. The indemnity in no case shall exceed the actual or intrinsic value of the article or the indemnity covered by the fee paid which varies from 50¢ for a maximum indemnity of \$50.00 to \$0.40 for indemnity.

Local postal officials recommend that persons mailing parcels or registered items to the United States, contact the Post Office for complete information.

YOUR M.P. REPORTS (Cont' - from page 4, Col. 3)

I will be home in Barhead at the end of the season, and will be pleased to hear from you at any time.

Yours very sincerely,
H.M. Horner, M.D., M.P.,
Isper - Bison.

HIGHWAYS

Hon. Gordon B. Taylor, Minister of Highways, announced today that anyone wishing to cut the hay and grass on the right of way of highways that are under the jurisdiction of the Department of Highways should apply to the District Engineer of the area. The District Engineer will approve such applications on a basis of "first come, first served."

The practice of the Department

has been to give priority to the farmer whose land adjoins the right of way permission to cut the hay, but in view of the post-harvest shortage of feed the Department has adopted the above open policy. It is anticipated that a very large amount of hay can be secured this way.

A G T BOND

It was announced by Premier S. C. Manning today that the people of Alberta will be given the first opportunity to buy the \$15,000, 000 Alberta Government Telephone Bond issue to be offered August 1st of this year through the Head Office of the Treasury Branches.

The funds are required to finance a substantial capital development and modernization program in helping with our province's progress.

The Bond issue is designed in such a way that both five and twenty year maturities will be available in denominations suitable to all investors.

He indicated that this unique opportunity will permit Albertans to invest in an Alberta Government guaranteed bond and share in financing the capital needs of this stable public utility. It will keep interest payments within the province, he said, and anticipated may well be the forerunner of Alberta citizens financing the major part of municipal and hospital requirements as well.

The Head Office of the Treasury Branches is prepared to fill orders from investment dealers and chartered banks as well as their own branches. He said that further information on this special opportunity for Alberta citizens to have first priority on this guaranteed offering set to yield an attractive return will be released in the near future.

Boxing News

The Pembina Boxing Club takes great pleasure in thanking the following businesses, and business men, wholeheartedly for the wonderful interest and support shown through their kind donations towards equipment and boxing jackets.

Our Thanks to:
Billy Rose, Lorne Stevenson, Ray's Shoe Repair, Henry Brant, R.A. Service Station, Gold Oil & Gas Co., Mobil Oil of Canada, Drayton Valley Groceries, Triple S Store, Harry Zolmer.

Thanking you again Pembina Boxing Club Gordon Cross

Being that Boxing is over for another season, as of last month, the Pembina Boxing officials got their heads together and took on the job of deciding who should have the "Boxer of the Year" award this year. This trophy was donated by Cady Construction of Drayton Valley, and

awarded to Rufus Combs last year. The trophy was again presented to Rufus, who, as we all know, deserves it for past performances.

Yours for better athletics Pembina Boxing Club.

ALBERTA NAIL STUDIES

Central Alberta farmers had been by half this summer on nine days to June 20, according to the 1961 report of the Alberta Hall Studies. The government sponsored organization reported the hall studies falling the 13,000 square-mile research area defined by Casson, Wilkie, Drayton Valley and Rocky Mountain House, varied in time from the average grape to large pellets the size of golf ball.

The Alberta Hall Studies group had high praise for the farmers in the test block who are voluntarily submitting report cards to the central office at Penhold, giving details of storms in their area. Group officials report the cards are coming in promptly, and contain the accurate information on which the hall investigation depends.

Voluntary help by better farmers is also being given the study in 45 locations in which pressure recording micrographs have been installed. Spectacular readings have been gathered this year by the summer of the study. Hall collecting basins have also been distributed to 200 residents in the test area and samples of stones are being gathered. The King-size hall stones were collected in the Rimbey district after a storm June 20.

Centre of the information seeking network is the radar unit located at Penhold. The electronic device has been photographing all storm activity within an 80 mile radius for a year detailed meteorological study.

The incidence of hail this summer has been considerably less than during the 1960 season. Reports of number of storms to date this year are only approximately one quarter of those reported during the same period last year.

D.V. Highlights

By: Edith Deby

Our deepest sympathy is extended to Mr. and Mrs. Henry Grinde in their recent sad bereavement.

Mr. Alfred Laitchuk has been staying with her daughter, Mrs. David Bennett, in New Westminster, since May. Members of her family living here say she may be back before long.

Mr. and Mrs. Charles Herndon are living in Westlock. They moved from Wason Lake in the Yukon, some time ago.

Why it's called FAMILY INCOME BENEFIT

By: MR. STUART LUNAN

Every young family man faces this problem. Living expenses are high. Income is low. But at the same time a young family needs a substantial amount of Life Insurance protection. The Family Income Benefit is the solution. Added to a regular Manufacturers Life plan it gives low cost protection for a specified period when the young family needs it most. For more information just mail the coupon.

TO: MR. STUART LUNAN THE MANUFACTURERS LIFE BOX 1025, DRAVTON VALLEY

I would like to know more about your FAMILY INCOME BENEFIT.

NAME _____

ADDRESS _____

21-65

D.V. HIGHLIGHTS (Cont' - from page 8, Col. 3)

The Reverend Albin Wright plans to study at the university this summer. He will be completing his degree in science.

Mr. and Mrs. Gilbert Mitchell, nee Joan Williams, are living in Medicine Hat where Mr. Mitchell works for Haliburton. Mr. Mitchell's young brother, David, and Barry Williams, are visiting their sister for part of the summer holidays.

Mr. and Mrs. Jean Jorgensen, well known old timers of the Willowood district, have returned to the city. They had spent several years in Edmonton where Mr. Jorgensen was interested in the retail lumber business.

Mrs. William Wolf Schlager has gone to the States to spend a three month holiday with members of her family. Mrs. Wolf Schlager hoped to "make the long drive to Kansas in five days."

Chile Tucker, Gordon Kynoch Jr., Eric Turner and Lynn Beckett are among the many farmers who have been doing breaking this summer.

Mrs. and Mrs. Herbert Redinger are sending congratulations to the birth of their daughter.

Miss Isabel MacKinnon is working in the drug store this summer. Isabel is the daughter of Mr. and Mrs. John MacKinnon.

We notice that Miss Gail Williams is wearing a new ring on the significant finger.

Mrs. Arthur Jorgensen and son, Jens, are visiting Mrs. Jorgensen's parents, Mr. and Mrs. Leslie Herndon, while Mr. Jorgensen attends summer school.

Mrs. Francis Law and son, Frank, are able to be about again. Both were patients in Drayton Valley Hospital for some weeks. Mrs. Law had a stump throat and Frank a broken leg. The broken leg was the result of a riding accident.

Another equestrian victim is young Leonard Umhaff, who broke an arm when his horse fell with him.

Mr. Eric Turner is much interested in the growing hardy fruits suited to our western Canadian conditions. This year, besides his raspberries and strawberries, he has apples and plums. What Mr. Turner has achieved shows what can be done if one is willing to take the time to study government bulletins and learn of suitable varieties. Might add that Mr. Turner's success is probably largely due to use of the common garden hoe!

The sympathy of the community is with Mr. and Mrs. Jack Frank at this time. Their little niece a visitor from Vancouver, lost her life in the Pembina River on Sunday.

Mr. and Mrs. Ted Tucher have bought the Wollschlaeger farm at Violet Grove. They moved from Edmonton recently.

Mr. and Mrs. Row Quinn are the proud parents of a little daughter. The little newcomer, Audrey by name, was born in Drayton Valley Hospital last Tuesday.

Mrs. Walter Krause is now an Avon representative in our town. She is finding the work most interesting.

Mr. and Mrs. Charles Dion are in the process of moving to the Nordegg area where Mr. Dion is employed with the government on road construction. The Dion's are very public spirited citizens and will be greatly missed by the Elks, Lions, W.L. and C.W.L. to mention a few of the organizations benefiting from their help.

by Earl C. Lowe, District Agriculturalist.

Timely Weed Control

The importance of proper timing in the use of chemical herbicides is too often overlooked by many farmers. They take great care to seed at the right time, watch at the right time and combine when the crop is in the proper condition. Many do so to realize, however, that a delay of five to ten days in spraying a crop may mean the difference between a considerable increase in yield and no increase at all.

Experiments carried out at the University of Manitoba show that weeds exert their full competitive effect early in life of the crop.

Time for CAL

WHERE FRIENDS LINGER, CAL IS THERE!
COOL, CLEAR CAL has that ZESTY-GIP that makes TASTE-BUDS TINGLE, FRIENDLY FOLKS LINGER. When you meet your friends for "after the FAIR" refreshments—call for "CAL", The West's best Ginger Ale—CALGARY!

crop plant. In other words late spraying may be quite effective in killing weeds but the competition of the weeds during the early stages of crop growth has already had its full effect in reducing crop yields.

Weeds vary greatly in their susceptibility to 2,4-D or MCP. Wild Mustard and spring germinating weeds are the most susceptible. Delaying treatment on such weed often means a waste of chemical and reduced yields because of weed competition. Timeliness in spraying these weeds is vital. The amount of chemical to use on various weeds under different growth conditions depends through consideration. While an easy-to-kill weed may predominate in a field there are usually several species present. For effective weed control, sufficient chemical must be applied to control all the susceptible weeds not just the easy-to-kill species. Serious consideration should also be given to growth

ON DISPLAY AT VALLEY DRUG

GREEN ACRES

(Cont' from page 9, Col. 5)

conditions and stage growth of the weeds. Young weeds growing rapidly are much easier to kill than the same weeds growing under dry or cool conditions, or at a more advanced stage of growth. For full information on chemical weed control, write or call at this office for a copy of the booklet "Weed Control with Chemicals."

Butter Fat Tests.
Butterfat tests often vary considerably, to the consternation of the dairyman. What causes tests to go up or down so rapidly?

A number of reasons could be responsible for a lower test. Arrival of spring weather, by unseasonable, by late, rough weather, by late, rough weather, by late, rough weather, and by poor physical conditions of the cow—any one could be a contributing factor. Tests are usually lowest in the middle of the lactation period. The test may be 1 per cent higher, or even more, towards the end and then at the peak of the lactation period.

If something goes a cow from testing her milk down considerably, the yield of milk is low and the fat percentage is also likely to be low. Chief reason is tripping often test five to ten times higher than the first-drawn milk.

If the milking time is later than usual, you will get lower milk, but it will be of lower test.

A higher test can be the result

of low temperature, short intervals between milkings and vigorous exercise such as being chased by a dog which also reduces the amount of milk.

Higher tests also are common when cows are in good physical condition, and milking and management, changes in feed, sickness and baling in heat are a few of these factors. Test of a nervous cow can be affected by any thing unusual. To her, the presence of the tester in the barn once a month, or the presence of any stranger can be something unusual.

Although there are exceptions, feed does not materially affect the fat test. Among the exceptions would be the feeding of large doses of cod liver oil which would lower the test. Feeds used in grain mixtures to boost fat content have, generally speaking little effect on butterfat content.

LOOKING AT RECREATION

(Cont' from Page 5, Col. 5)

Villanous caverns in their get-together with former boss, Ken Lottimore of Vancouver and "Bud" Osborne of Jasper Place. You guessed it, the bad guys were disappointed. All in all, it made for a good evening's entertainment and I think most of the 300 spectators enjoyed the performances immensely.

LEGIONETTES TAKE A DOUBLET

On Sunday afternoon we went out to see the ladies perform again, but this time in an activity much more suitable to the fairer sex than the masculine

game of professional wrestling. The Drayton Valley Legionettes hosted the Barhead Jets in softball twin bill at the Legion Ball Field. The local girls, despite the fact that they were competing minus the services of a couple of their star players, got off on the right foot and played outstanding ball to take the first game 10-2. The highlights of this game was the steady pitching of Ethel Jones and a homer with two on by Germaine St. Louis.

It was a different story in the second encounter with Barhead leading most of the way until the Legionettes tied it up 13-12 in the bottom of the seventh inning to force the game into extra innings. Doreen Tervolin who played outstanding ball all afternoon came in for the deciding run in the bottom of the eighth to make it an 13-12 victory for the Legionettes. Gene Halten was the winning pitcher. The local girls will be traveling to Barhead in the very near future, possibly next Sunday, to repay the visit and play another double-header.

LIBRARY HOURS CHANGE:
The Drayton Valley Library will be on summer schedule until the first week in September. The head librarian, Mrs. Maxine Krause has notified us that the library will only be open once a week during July and August, that is Tuesday evening from 7:30 - 9:00 p.m. The library will not be open at any time on Friday nor on Tuesday afternoon.

Have you noticed that the modern girl's hair is so long? It looks like a wig! Maybe that's because she doesn't know what a wig looks like.

FIRST BAPTIST CHURCH NEWS

(Cont' from page 7, Col. 2.)

Thursday evening at 8 p.m.

Miss Ruby Elison, missionary on furlough from Assam India, will address the mid-week service of the First Baptist Church. The service will be held at the home of Dr. and Mrs. S. Steeves 4861 - 84th Ave.

Miss Elison has been supervisor of nurses at the Tempur Baptist Hospital for one year. She will be leaving for India in August. Her home is at Kuroki, Sask.

A warm welcome is extended to all who are able to attend.

INSTALLATION OF LUTHERAN PASTOR

(Cont' from page 7, Col. 4)

Under which the Rev. Steyer took his theological training, and the two former vacancy pastors, Rev. Mueller and Rev. Jans.

Following the installation service the Lutheran ladies served a wonderful buffet luncheon in the church hall. Master of Ceremonies for the after service occasion was Mr. Charles Schneider, church secretary. At the luncheon words of greeting were given to Rev. Steyer by Dr. Spiegel, Rev. Scholz, Rev. Jans, Rev. Mueller and by the president of the local congregation, Mr. Ervin Rendell.

In closing, the new pastor, Rev. Steyer expressed his heartfelt thanks to the congregation and to the district for the very cordial welcome that had been extended to him.

REV. EDWARD STEYER

Rev. Edward Steyer who was ordained and installed as pastor in Drayton Valley Emmanuel Lutheran Church at a recent installation service was born and raised on an Arkansas farm. After he left the farm he worked in General Motors plant in Flint, Michigan for five years and then being the call of God upon his life he entered Concordia Seminary, at Springfield, Illinois from which he graduated.

Young Lutheran ministers are required to serve one year of "vicarage" before they are ordained and Rev. Steyer served that year in Canada, in a Lutheran church at Drumheller. He accepted the

call to the pastorate in Drayton Valley and Tonsawaw and was installed a pastor of the two churches on July 9th. He is not married.

The young minister came from a family of Lutheran ministers. His grandfather was a minister, he has uncles and cousins who serve the Lutheran Church in the ministerial field. He has a brother Dr. Steyer, who is a professor in Alabama State University. In addition to his professional work Dr. Steyer works with the U.S. government in their space mission program. A sister of Rev. Steyer's is married to the co-editor of the Lutheran denominational paper.

BODY FOUND IN RIVER

(Cont' from page 1, Col. 3)

However, Bear Construction workers found the body of a man in the river on Tuesday, July 11, and authorities believe that it may be the body of Mr. Fisher.

R.C.M.P. of the Breton detachment are in charge of the investigation, along with members of the R.C.M.P. ID branch from headquarters in Edmonton.

NEW GOLF COURSE FOR DISTRICT

(Cont' from page 1, Col. 3)

the highway, immediately adjoining the new picnic site on Crown land, on the NE 1/4 of sec. 28, Twp 49, range 7. This land has been secured and Mr. Featherstone is dealing with the Highways Department for additional land in the adjoining quarter, NE 1/4 of sec. 29, which has a creek bottom which will be a very vital part of the proposed arrangements for the golf course.

Mr. Featherstone expects to get started on work on the golf course immediately and he had formerly hoped to get a driving range put in this year. He is not sure whether this will now be possible this year or not it will undoubtedly depend mostly on whether or not we have a late fall; but work will be started on the clubhouse and on the first phase of the golf course, in mid-June for next season.

photographic news. On his trip through these parts Payne was just returning from Japan where he had been for six weeks doing a pictorial survey of Japan's heavy industry, oil refineries, chemical plants, etc.

He was in the air over the Texaco City disaster when the fire-rigged Ammonia nitrate-bearing ship blew up and almost obliterated the city, taking pictures of the disaster from his own plane just minutes after it happened.

Leaving here he was heading around the world to visit oil capitals, Kuwait, etc. for industrial purposes, in which he specializes.

JUVENILE BASEBALL

(Cont' from page 1, Col. 4)

when the catcher overthrew to third, letting in a tying run. Drayton Valley boys rallied and stopped Mayenthorpe from scoring again, while in the same inning the D.V. boys got in one more run in the bottom of the ninth when A. Hope hit in Tucker for the winning run to end the game. The first game was pitched by Ken McMorris and Jimmie Jackson.

Drayton Valley followed the win in the first game by taking the lead in the early innings of the second game with Mayenthorpe, threatening in later innings. The game ended with a score of 10-5 in favor of the home team. The second game was played with Sherman Mohr on the pitcher's mound. The game was very close and enjoyable throughout. Drayton Valley Juveniles expressed their appreciation of the sportsmanship of the visiting ball team.

From Scoop's Notebook

Postmaster Jack Bright's parents who have resided in sunny Alberta for many years are leaving for England where they originally came from thirty-five years ago. They will visit Europe, also seeing a daughter who has moved to London. Billy said his sister Kathie who is now in R.N. had been sick and

Stuttgart Germany.

What strange magnet brought back to D.V. Accountant Roy Glick, who was the popular accountant in our local Royal Bank branch for almost three years, did he was transferred recently to the Main Branch in Edmonton? Could it be he came back to see the boys in the bank, or did he, perchance, come back to see the latest styles in Dolly's style Shoppe? Anyway, back in D.V. he was and the last we saw of him walking down the street he was not alone.

The real McCoy, or rather the previous McCoy is G.P. "Bert" McCoy who is taking Roy's former place in the local Royal. McCoy worked in the Drayton Valley branch 'way back when it was in its first fulltime spot in the Hotel building, where Ken's Men's Wear now displays the latest in masculine fashions. There were the good ol' days! Jerry came back to good old D.V. from Strathmore. Of course, he found many changes in the old ballpark since the halcyon days of 1955.

Recent visitor to the PNA office was Billy Glas, a fine young gentleman who was rated in Rocky Rapids, taught school in Drayton Valley for a couple of years and is now living with his parents in Edmonton and teaching in Spring Plain. Billy said his sister Kathie who is now in R.N. had been sick and

off work for a couple of weeks but is now back at her post of duty again. His parents are well.

Back on the job with Schlumberger again is Engineer Joe Goetz after a visit to his native Eastern Canada: hometown Toronto, Welland, Niagara Falls and points east. Liberal Joe took in some of the famous Coyne debates in Parliament Hill. He heard Merry Mike and Honest John going it at bantam and today as they discussed the Coyne affair. Whoever else he has done or left undone, as the collect says, Mr. Coyne has provided seeds of copy for the newswriters and newscasters. Long may he bring it in right even though he may be dead-wrong!

Kind of like the famous epitaph "Here lies the body of William Bly."

Who died maintaining the right of way. He was right, dead right, as he sped along.

But he's just as dead as if he'd been dead wrong!

Hot-in-one Ron Elsenheimer's beautiful sister Rose Marie and her handsome husband Murray Blahely were visiting Ron in Drayton Valley recently. Murray is a newscaster with CFBN Radio and Television. In case anybody hasn't heard of the quick young Blahely works for it is an Edmonton on Audio-Video news medium.

DRAYTON VALLEY NORTHERN STORES DEPARTMENT

NEW ROTARY PRESIDENT

Drayton Valley Rotary Club saw their annual change of officers recently when Past President "Mac" McLean handed over the gavel to new President Sid Mitchell. Incoming secretary is Ro-

Staff Photo

bertan Sid Weadell, Robertan Ed. Featherstone remains in the treasurer's office. New Vice president for the coming year is Robertan Arnold Lloyd.

The local Rotary Club has a quite impressive list of achievements in community service for the past year. Among their many projects was the toboggan slide on a hill southeast of town. They have kept the Rotary Community Park equipment in shape; maintaining the swings, insect-catchers, wading pool, etc., which make up the very excellent kiddies playground park right in the centre of town. Form their sale of turkey cards they supplied twenty-two Christmas hampers, with some toys and some clothes additional to needy families. They have enlarged the skating rink and sponsored the CNIB drive. At the close of the football season they gave a party for football players and coaches when they made the presentation of trophies and awards. They also made trophy awards to hockey teams and person awards to hockey players.

Sponsoring the "Adventures In Citizenship" contest in the local high school they went winner Miss Jane Schoen to Ottawa on an all-expense paid tour of the capital city. This adventure in community service will probably become an annual affair. The Rotary club has also helped in sending a Queen Scout to Ottawa. Included in the list of projects sponsored by the local Rotary Club is the Dale Carnegie Course held at the beginning of this year.

A speaker was lecturing to the Lions club on the subject of forest preservation. "I don't suppose," he said reprovingly, "anybody in this hall has done a single thing to conserve our timber resources."

After several moments of silence came a meek voice from the rear: "Sir, I once shot a woodpecker."

One drawback to improved transportation is that there is no longer any such thing as a distant relative.

Two men were discussing a friend's bad luck on the race. "For Jimmy," commented one of them, "Frank is a demon at cards, but he can't win a bet at the track."

"That's not so funny," the other said. "He can't throw the horses."

Then there was the motor who cut a hole in the rug so he could see the floor show - and covered it up because he didn't like the dirty cracks.

"You anxious to make this short," said the golfer. "That's my mother-in-law on the clubhouse porch."

"Don't be silly," his companion remarked. "It's 200 yards - you can't hit her from here."

Note: Each Series to start at Home of first Team mentioned.

BASE BALL NEWS

LEGIONARIES DOWN GENESIS FOR PLAYOFFS.

Legionaries took the first step toward the Oilfield League Championship for the second straight year when they got into the League's playoff circle with a 5-3 victory over the Genesis Gems. The game was played at the local Legionaires' Ball Park last Wednesday evening.

It was a close game all the way with little to choose between the teams until the Legionaries came on with a very strong finish to take the all-important encounter. Bradshaw and Mochan led the way, each with two hits and one run while Wallace, Dea and Redlinger came in for the other Drayton Valley runs. Murry Dea was the winning pitcher while Howkowski was on the mound for the Gems in a losing cause.

The Legionaries now go on to meet the Warburg Buffaloes in a best of three game series for the divisional championship and the right to compete in the Oilfield Championship final. The locals have also entered the Intermediate Playoffs which will get under way in the very near future. At this writing, it is not known who will furnish the opposition in this case.

COUNCIL MEETING

The regular meeting of the Council of the Town of Drayton Valley was held in the Council Chambers on the 13th day of July, 1961, at 8:00 a.m.

Those present were: Mayor A. Meier, Deputy Mayor D. G. McKenzie, K. Wahl, H. Zolmer, C. D. Fuhr, T. Swanto and R. Demert, also Secretary-Treasurer W. G. Johansson.

The minutes of the meetings of June 18th and June 19th were adopted as read. The Financial Statement and the Appropriation balances were examined and accepted for filing.

By-law No. 340, being an amendment to Traffic By-law No. 181, was read the first, second and third times and finally declared law.

Spiegel, Professor at Concordia Seminary, Springfield, Illinois, Rev. Steyer, Rev. P. W. Scholz, of Leduc, Vice President of Alberta-B.C. district, Lutheran Missions, Spokane, and Vice President of the Lutheran Church of Canada, and Rev. M. P. Jans, of Jasper Place.

CHIROPRACTIC CENTRE CHANGES LOCATION

Dr. William Rufus of the Drayton Valley Chiropractic Centre has changed office locations. Dr. Burns is now located in the new building across from the post-office, which Buchholts Construction recently completed. The other half of the duplex office Buchholts has their new office.

Dr. Burns came to Drayton Valley just a year ago and located in the former Town Hall building, near the water tower, where he remained until the Buchholts building was completed recently. Dr. Burns has built up a very fine practice in this vicinity and keeps quite busy. He plans on taking the first vacation he has taken for a number of years, during the first of August, until the middle of the month. While Dr. William is on vacation his brother Dr. Charles of the Chiropractic Centre in Edmonton will take his place and the office will be open three days a week.

Another new addition to the big domain this year will be the local Larist Gymnastics Club who will

NEW OILFIELD EQUIPMENT

The above picture shows the newly designed De-Al Condensate Dehydrator Unit designed by Steve Pawlick, president of De-Al Oil Tool Co. Ltd. and Bob Haber, vice president of the company.

These units have been proven in various fields and have proved very satisfactory by heating costly water problems that have cost the industry thousands of dollars.

In the near future De-Al will release information on their new patent chemical that is to be used in combination with condensate and which will be one half more effective.

On one particular occasion recently application was made by De-Al Oil Tool Co. Ltd. to the Pembina Lubricants area for Imperial Oil Ltd. where the pipe was completely waxed up. Various ways had been tried to remove the waxing but the De-Al Unit was called to the scene and had the tubing de-waxed in a very short time and the well back in production again.

6th ANNUAL RODEO

Preparations for the staging of the Drayton Valley Sixth Annual Rodeo are well underway and it certainly will be bigger and better than ever this year with all the added features. An attractive feature will be the province-wide Fly-In Breakfast which will be served in real Chuckwagon style on the Hudson's Bay Parking Lot from 8:00 till 11:30 in the forenoon, Saturday, July 29.

The first Day, opening parade, at noon on Friday, July 28th, will certainly be a bright and handsome affair, with many commercial and industrial floats entered in the various events. There will be a Child Parade in addition to the Children's Deaf and Dumb Parade. Leading the whole colorful parade will be the Drayton Valley Band who have been organized for some six months, practicing regularly and who are now ready for real business; leading the band will be the majorettes, who are also a credit to our town. On the evening of July 28th a huge fireworks display will be shot off, starting at 10:00 p.m.

Another new addition to the big domain this year will be the local Larist Gymnastics Club who will

Parade Route

The parade will form at Calgary Power office as on previous occasions. At the corner of 50th Ave. and 56th Street it will turn NORTH at Valley Dairy, at McFarlane Lumber Yard it will turn WEST past the Hotel, and at Pembina Drug Store will turn SOUTH to Williams' Store, then it will turn WEST past the cemetery, to Drayton Valley Hot Oil, and then will turn SOUTH again to 60th Ave. where it will turn WEST again to Williams' Store, and continue WEST to Sunset Moore, just across Industrial Road, where it will disband.
